WEBSITE CHANGE REQUESTS — ACTIONABLE PUNCH LIST FOR JACK

Target: staging.join-ecotopia.org (Staging Audit & Pre-Launch Review)
Chris (Storytelling, Narrative & Design Lead)
2026-10-09

Summary for Jack: Distilled punch list of **10 actionable changes** for `https://staging.join-ecotopia.org/`. All lore essays and physical venue details are stripped out. Only direct website fixes, form flow updates, and drop-in copy are listed below.

1. CRITICAL LAUNCH BLOCKERS (LEGAL, SAFETY & DOOR ACCESS)

1.1 `/terms` — Final Contribution & Safety Copy (Drop-In)

Replace the draft placeholder `[PLACEHOLDER: amount and how to pay in advance.]` with:

```
### Financial Contribution & Entry Voucher
Participation in Ecotopia requires an advance contribution of €15.00 (sliding
        scale €10.00–€25.00 based on means) offsetting venue hiring at De
        Warren, food, beverage reserves, and recycled passports.
        Contributions are processed via the advance payment link or in cash/
        pin at the garage intake checkpoint. Subsidized grants:
        citizens@join-ecotopia.org.

### House Rules, Safety & Game Step-Out Mechanics
1. Age Requirement: Strictly 18+. Age verification takes place at the garage
        threshold.
2.
        Safe-Word ("OZONE"): Speaking "OZONE" immediately breaks character
        for all actors and attendees. Nearby wardens must step back, offer
        space, and assist you.
3. Observer Wristbands: Guests wishing to socialize and dance without
        roleplay, interrogation, or chores may request an Observer Wristband
        at the door. Wardens are forbidden from conscripting observers into
        chores.
4.
        The Sanctuary: The second-floor library is a permanent non-theatrical
        Safe Zone (no roleplay or propaganda).
```

1.2 `/privacy` — GDPR Data Controller & Purge Schedule (Drop-In)

Replace existing draft brackets with:

```
### 1. Data Controller & Organizing Entity
Operated by the Ecotopia Organizing Committee in partnership with De Warren
        Living Cooperative (Archipel 1, 1095 KJ Amsterdam). Data Steward:
        citizens@join-ecotopia.org.

### 2. Legal Basis (GDPR Art. 6)
Processed under Contractual Necessity (Art. 6(1)(b)) to administer event
        entry, assign roles, and print passports.

### 3. Absolute Data Purge Date
All personal data and quiz responses will be permanently deleted from
        databases and backups on 19 December 2026.
```

1.3 Door Check-In Risk — Vercel WAF & Shared NAT IP Jam

- **The Vulnerability:** Automated load testing showed 40 rapid requests trigger Vercel's `HTTP 403 Challenge`.
- **The Risk:** When 120 guests connect to De Warren's local Wi-Fi at the door to load their digital ticket/passport, they will share a single NAT IP. Vercel will interpret this concurrency surge as a DDoS attack and block entrance check-in.
- **Action for Jack & DevOps:** Whitelist De Warren's external IP in Vercel/Cloudflare and disable aggressive bot challenge rules on `/citizen`, `/sign-in`, and `/apply` for the night of Nov 28. Have 120 pre-printed paper passports as an offline fallback.

2. INTAKE & APPLICATION FLOW (`/APPLY`)

2.1 Preamble Above Login Button

Prevent drop-off by placing this teaser text directly above the `"Sign in with Tonomy"` button on `/apply`: > **THE THRESHOLD OF ADMISSION:** *"Before you may confess, you must exist in the ledger. You were born into debt. The water*

that washed your infant skin, the calories that sustained your youth, the oxygen drawn into your lungs: every milligram is owed to the biosphere. Authenticate your identity to begin the Five Confessions and calculate your starting balance."

2.2 The 5 Carbon Confession Questions (`CARBON_QUESTIONS`)

Update form labels, hints, and option keys from generic carbon metrics to liturgical audits:

Field	Updated Label & Hint	Radio / Dropdown Options
`flights`	**Recreational Kerosene Combustion** *Return trips double your debt.*	`f0`: Zero (soil-bound) | `f1`: 1–2 | `f2`: 3–5 | `f3`: 6–10 | `f4`: >10 (exhaust)
`car`	**Complicity with Internal Combustion** *The bitumen martyrs tore their skin. Where were you?*	`c0`: Unmotorized | `c1`: Shared/borrowed | `c2`: Owned one machine | `c3`: Owned >1
`meat`	**Flesh Extraction & Caloric Carnivory** *Miniplenty provides algae and pulse paste.*	`m0`: Botanical (zero blood) | `m1`: Few/month | `m2`: Few/week | `m3`: Daily | `m4`: Every meal
`ai`	**Inquiries to the Silicon Mind (AI Compute)** *Every prompt boiled freshwater. R.E.I.G.N. remembers.*	`a0`: Zero (manual thought) | `a1`: 1–5 (glass) | `a2`: 6–20 (bucket) | `a3`: >20 (bath) | `a4`: AI is helping me
`devices`	**Parasitic Lithium & Listening Hardware** *Every sensor transmitted compliance.*	`d0`: 1–2 (essentials) | `d1`: 3–5 | `d2`: 6–10 | `d3`: >I can count (surrounded)

2.3 Starting Debt Backend Calculation

Formula on submission: **Starting Balance = –100 – ∑(Confession Penalties)**. Outputs initial balance between **–150 and –500 Carbon Credits** displayed on the confirmation screen.

2.4 Sacramental Surrender Keys (`INTAKE_SURRENDER`)

Standardize form options and pass these exact tags to the guest record for door export:

• `surname` ("My Surname") → `NAME_STRIKE` | • `opinions` ("My Opinions") → `HERESY_RISK`

• `weekends` ("My Weekends") → `LABOR_DRAFT` | • `hotwater` ("Hot Water") → `COLD_RATION`

• `bedtime` ("My Bedtime") → `NIGHT_SHIFT` | • `secrets` ("My Secrets") → `SURVEILLANCE_FOCUS`

3. CONTENT, COPY & FRONTEND FIXES

3.1 `/ministries` — Official 10 Newspeak Ministries (Drop-In)

Replace placeholder ministry names with the official 10 Newspeak Ministries: 1. **Miniplenty (Ministry of Ecological Bounty):** Food rationing, algae/pulse paste, caloric limits. 2. **Minilove (Ministry of Ecological Harmony):** Biometric surveillance, garage interrogation, thought-audits. 3. **Minijoy (Ministry of Morale):** Mandatory cheerfulness, elimination of pre-collapse nostalgia. 4. **Minirenewal (Ministry of Elemental Reclamation):** Identity erasure, upcycling booth, biological composting. 5. **Minilight (Ministry of Luminescence):** Rolling blackouts, kinetic bicycle generators for DJ power. 6. **Miniflow (Ministry of Hydrological Purity):** Moisture metering, graywater recovery, urine audits (*Peetopia*). 7. **Minibreath (Ministry of Atmospheric Rectitude):** Breath quotas, exhalation taxation. 8. **Minishelter (Ministry of Domestic Confinement):** 15-minute perimeter enforcement, room curfews. 9. **Miniservice (Ministry of Restorative Labor):** Mandatory dishwashing ("greenwashing") and cleaning shifts. 10. **Minithrift (Ministry of Material Confiscation):** Seizure of petroleum fabrics and private possessions.

3.2 Mobile Layout & CSS Collision Patch

- **Bug:** The floating sticky `"VOICE A CONCERN"` megaphone button covers footer links and cards on screens <400px (iPhone SE).
- **Fix:** Add to `styles.css`:

```
@media (max-width: 480px) {
  .floating-concern-btn { position: static !important; display: block;
        margin: 0.8rem auto; width: 90%; }
}
```

3.3 Security Response Headers

Add missing headers to `next.config.js` or `vercel.json`: * `X-Content-Type-Options: nosniff` | * `Referrer-Policy: strict-origin-when-cross-origin`

4. MASTER ACTION CHECKLIST FOR JACK

#	Item Description	Route / Area	Owner	Priority	Status
1	Paste €15 fee & “OZONE” safe-word copy	`/terms`	Jack	**BLOCKER**	Drop-in ready
2	Paste GDPR controller info & Dec 19 purge date	`/privacy`	Jack	**BLOCKER**	Drop-in ready
3	Add Vercel rate-limit bypass for De Warren NAT IP	Hosting / DevOps	Jack / DevOps	**BLOCKER**	Action required
4	Add “Threshold of Admission” teaser before sign-in	`/apply`	Web Dev	**HIGH**	Drop-in ready
5	Update 5 carbon confession questions & options	`/apply` form	Web Dev	**HIGH**	Drop-in ready
6	Update starting debt math formula (–150 to –500)	Backend	Web Dev	**MEDIUM**	Formula ready
7	Standardize surrender options & door export tags	Form / DB	Web Dev	**MEDIUM**	Keys ready
8	Paste 10 Newspeak Ministries copy	`/ministries`	Web Dev	**HIGH**	Drop-in ready
9	Apply mobile CSS fix for floating button	`styles.css`	Web Dev	**MEDIUM**	Code ready
10	Add `nosniff` and `Referrer-Policy` headers	Server config	Web Dev	**LOW**	Code ready
